About Carlyle

Carlyle (NASDAQ: CG) is a global investment firm with deep industry expertise that deploys private capital across its business and conducts its operations through three business segments: Global Private Equity, Global Credit, and Carlyle AlplInvest. With \$453 billion of assets under management as of March 31, 2025, Carlyle's purpose is to invest wisely and create value on behalf of its investors, portfolio companies, and the communities in which we live and invest. Carlyle employs more than 2,300 people in 29 offices across four continents. Further information is available at www.carlyle.com. Follow Carlyle on X @OneCarlyle and LinkedIn at The Carlyle Group.

“Our quarterly results reflect focused execution against our long-term strategy, evidenced by record Fee Related Earnings, FRE margin, and assets under management. In today’s dynamic environment, the scale of our global platform, our asset-light approach, and our decades of experience investing capital position us well to navigate across market cycles and capture opportunities. With \$84 billion in dry powder and on the ground insights across global markets, we remain confident in our ability to drive long-term value for our clients and shareholders.”

- Fund management fees increased 12% in 1Q'25 from the comparable period in 2024, primarily driven by an increase in capital markets fees, and to a lesser extent, the impact of fundraising in our Carlyle AlpInvest products, the activation of fees in certain products in our Global Private Equity segment in the latter part of 2024 and an increase in catch-up management fees of \$14 million. These increases were partially offset by the impacts of step-downs in certain products in our Global Private Equity segment and net investment realization activity across funds that charge fees on invested capital.
- Investment income, including performance allocations, in 1Q'25 primarily reflects the accrual of unrealized performance allocations driven by appreciation in our carry fund portfolio, particularly in our U.S. buyout funds, partially offset by a reversal of unrealized performance allocations related to our Asia Buyout strategy. Additionally, during 1Q'25, we restructured the terms of our strategic investment in NGP (as defined herein), which resulted in an impairment charge of \$93 million related to our investment in NGP Management (as defined herein) as well as the reversal of \$38 million in investment income from NGP performance allocations. Investment loss, including performance allocations, in 1Q'24 primarily reflects the reversal of unrealized performance allocations in certain carry funds.

*Net accrued fee related performance revenues for CPI are excluded from Net Accrued Performance Revenues. These amounts will be reflected as fee related performance revenues when realized, and included in Fund level fee revenues in our segment results. There were no accrued fee related performance revenues for CPI as of March 31, 2025.

**The IRR is incalculable, which occurs in instances when a distribution occurs prior to a Limited Partner capital contribution due to the use of fund-level credit facilities.

Reconciliation for Distributable Earnings Per Share (Unaudited)

Our estimated DE effective tax rate was 9.2% for Q1 2025, reflecting the impact of tax deductions resulting from the vesting of restricted stock units and the amortization of intangible assets related to acquisitions, partially offset by the impact of disallowed officer compensation and state and foreign taxes.

** Shares repurchased and retired exclude approximately 2.8 million shares withheld in the net share settlement of equity awards during the three months ended March 31, 2025. We include the associated tax withholding payments made by the Company in the total cost of shares repurchased and retired during the period and in calculating the remaining capacity under our repurchase authorization. In February 2024, the Board reset the Company's total share repurchase authorization to \$1.4 billion, effective February 6, 2024. As of March 31, 2025, approximately \$0.7 billion of repurchase capacity remained under the program.

*** Shares eligible for dividend include 0.3 million net common shares that were issued in May 2025 in connection with the vesting of restricted stock units. For purposes of this calculation, these common shares have been added to the common shares outstanding as of March 31, 2025 because they will participate in the dividend paid on common shares in May 2025.

- (1) Effective December 31, 2023, we realigned our employee compensation program to increase the proportion of our performance allocations used to compensate our employees. Net realized performance and fee related performance revenues in LTM 1Q'24 and FY 2023 include a one-time charge of \$1.1 billion to unrealized performance allocations and incentive fee related compensation expense related to this compensation realignment.
- (2) In 2Q'23, Fortitude called the remainder of its March 2022 capital raise, which resulted in a decrease in the Company's indirect ownership of Fortitude from 13.5% to 10.5%. As a result of the dilution, the Company recorded a reduction in the carrying value of its equity method investment and corresponding loss of \$104 million. This amount is excluded from the total segment results.
- (3) Equity-based compensation includes amounts reflected in principal investment income and general, administrative and other expense in our U.S. GAAP statement of operations.
- (4) Includes charges (credits) related to Carlyle corporate actions and non-recurring items that affect period-to-period comparability and are not reflective of the Company's operating performance.

(1) The Distributable Earnings in the Carlyle Consolidated column is income before provision for income taxes, which is the GAAP measure that is most directly comparable to Distributable Earnings.

(2) See detailed breakdown of revenue and expense adjustments on page 32.

(3) The Other Income (Loss) adjustment results from the Consolidated Funds which were eliminated in consolidation to arrive at Carlyle's total Other Income (Loss).

(4) See the reconciliation for Distributable Earnings and Fee Related Earnings on page 29.

(1) The Company has equity interests in NGP Management, L.L.C. ("NGP Management"), the general partners of certain carry funds advised by NGP Energy Capital Management ("NGP"), and principal investments in certain NGP funds. These equity interests are accounted for as investments under the equity method of accounting. Total investments attributable to The Carlyle Group Inc. excludes the strategic equity method investment in NGP Management and investments in the general partners of certain NGP carry funds. The Company does not control or advise the NGP funds.

(2) Of the \$300.4 million of CLO borrowings as of March 31, 2025, \$283.1 million were collateralized by investments attributable to The Carlyle Group Inc. The remaining CLO borrowings are collateralized by investments attributable to non-controlling interests.

(3) Accrued performance allocations from NGP Carry Funds are recorded as an investment in the U.S. GAAP balance sheet.

Dividend Policy

Our dividend policy for our common stock is an annual rate of \$1.40 per share (\$0.35 per common share on a quarterly basis). The declaration and payment of any dividends to holders of our common stock are subject to the discretion of our Board of Directors, which may change our dividend policy at any time or from time to time, and the terms of our amended and restated certificate of incorporation. There can be no assurance that dividends will be made as intended or at all or that any particular dividend policy will be maintained.

Non-GAAP Financial Measures

This press release contains financial measures that are calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles in the United States of America. These non-GAAP financial measures should be considered in addition to and not as a substitute for, or superior to, financial measures presented in accordance with U.S. GAAP. The reasons management believes that these non-GAAP financial measures provide useful information are set forth in our most recent Annual Report on Form 10-K filed with the SEC.

Notes on Carlyle Consolidated GAAP Results (Page 5)

(1) Income (loss) before provision for income taxes is the GAAP measure that is most directly comparable to Distributable Earnings, which management uses to measure the performance of the business. A full reconciliation is included starting on page 29.

(2) Margin on income (loss) before provision for taxes margin is equal to Income (loss) before provision for taxes, divided by Total revenues.

(3) Net performance revenues are equal to Performance revenues less Performance revenues related compensation expense.

Note on Fee Related Earnings (Page 9)

(1) FRE Margin is calculated as Fee Related Earnings, divided by Total Segment Fee Revenues. Effective December 31, 2023, we realigned of our employee compensation program, which increased the proportion of our accrued performance allocations used to compensate our employees. This led to a lower FRE compensation ratio, which is calculated as total segment cash-based compensation and benefits, divided by total segment fee revenues, and a higher realized performance revenue compensation ratio.

Notes on Performance Revenues (Page 10)

(1) We generally earn performance revenues (or carried interest) from our carry funds representing a 20% allocation of profits generated on third-party capital, and on which the general partner receives a special residual allocation of income from limited partners, which we refer to as carried interest, in the event that specified investment returns are achieved by the fund. Disclosures referring to carry funds also include the impact of certain commitments that do not earn carried interest, but are either part of, or associated with, our carry funds. The rate of carried interest, as well as the share of carried interest allocated to Carlyle, may vary across the carry fund platform. See "Non-GAAP Financial Measures" for more information. A reconciliation of accrued performance allocations to total segment net accrued performance revenues is included on page 33.

(2) Includes the change in performance revenue accrual from positive or negative movements in portfolio valuation, incremental preferred return and fees, foreign exchange fluctuations and acquisition/divestiture activity. See "Non-GAAP Financial Measures" for more information. See page 31 for a reconciliation of performance revenues to realized net performance revenues.

(3) Total for Global Private Equity includes Legacy Energy funds. The impact of these funds is no longer significant to our results of operations.

Notes on Assets Under Management (Pages 11-13)

(1) Total Assets Under Management refers to the assets we manage or advise, and reflects the sum of the unrealized Fair Value of Investments and Available Capital. We also include the NGP funds, which are advised by NGP.

(2) Available Capital refers to the amount of capital commitments available to be called for investments, which may be reduced for equity invested that is funded via fund credit facility and expected to be called from investors at a later date, plus any additional assets/liabilities at the fund level other than active investments. Amounts previously called may be added back to available capital following certain distributions.

(3) Credit (Non-Carry Funds) includes our CLOs, business development companies and related managed accounts, the Carlyle Tactical Private Credit Fund, as well as securitization vehicles and various managed accounts in our Carlyle Aviation business. "Other" includes certain managed account vehicles. Total AUM for Insurance Solutions includes \$6 billion related to the investment in Fortitude by Carlyle FRL and third-party strategic investors. Amounts invested in Carlyle products under the strategic advisory services agreement are included in Insurance Solutions AUM as well as in the AUM of the strategy in which they are invested.

(4) Performance Fee Eligible AUM represents the AUM of funds for which we are entitled to receive performance allocations, inclusive of the fair value of investments in those funds (which we refer to as "Performance Fee Eligible Fair Value") and their Available Capital. Performance Fee Eligible Fair Value is "Performance Fee Generating" when the associated fund has achieved the specified investment returns required under the terms of the fund's agreement and is accruing performance revenue as of the quarter-end reporting date. Funds whose performance allocations are treated as fee-related performance allocations are excluded from these metrics.

(5) The In-Carry Ratio represents Performance Fee-Generating Fair Value divided by Total Performance Fee Eligible Fair Value (as defined above).

(6) Fee-earning Assets Under Management refers to the assets we manage or advise from which we derive recurring fund management fees, and is calculated as the basis on which management fees would be called, if called on the effective reporting date. We include Fee-earning AUM on the NGP funds, which are advised by NGP.

Notes, continued

Notes on Assets Under Management (Pages II-13) (continued)

(7) Pending Fee-earning Assets Under Management refers to commitments that have been raised and will become Fee-earning Assets Under Management upon the activation of recurring fund management fees on the commitments, or as the capital is invested, depending on the fee structure of the fund or vehicle.

(8) "Perpetual Capital" refers to the assets we manage or advise which have an indefinite term and for which there is no immediate requirement to return capital to investors upon the realization of investments made with such capital, except as required by applicable law. Perpetual Capital may be materially reduced or terminated under certain conditions, including reductions from changes in valuations and payments to investors, including through elections by investors to redeem their investments, dividend payments, and other payment obligations, as well as the termination of or failure to renew the respective investment advisory agreements. Perpetual Capital includes: (a) assets managed under the strategic advisory services agreement with Fortitude, (b) our Core Plus real estate fund, (c) our business development companies and certain other direct lending products, (d) Carlyle Tactical Private Credit Fund ("CTAC"), (e) our closed-end tender offer Carlyle AlpInvest Private Markets ("CAPM") funds, and (f) certain other structured credit products.

Notes on Key Metrics Activity (Page I4)

(I) Inflows include the impact to our AUM of gross fundraising as well as closed reinsurance transactions at Fortitude and corporate acquisitions during the period, if any.

(2) Deployment comprises (i) Invested Capital of Carry Funds, (ii) new CLO issuances and incremental capital raised from CLO resets, and (iii) gross originations and other non-carry fund activity. This metric excludes deployment of Fortitude's general account assets covered by the strategic advisory services agreement into third party investments.

(3) Total for Global Private Equity includes Legacy Energy funds. The impact of these funds is no longer significant to our results of operations.

Notes on Segment Highlights (Pages I6-I8)

(I) Reflects the percentage of Fair Value in our GPE carry funds attributable to investments originated in Q1 2021 or prior. Investments that include follow-on tranches are fully recognized based on the date of the initial investment activity.

(2) Insurance Solutions includes \$6 billion related to the investment in Fortitude by Carlyle FRL and third-party strategic investors. Amounts invested in Carlyle products under the strategic advisory services agreement are included in Insurance Solutions AUM as well as in the AUM of the strategy in which they are invested.

(3) Includes Mezzanine and CAPM funds.

Notes on Total AUM and Fee-earning AUM Roll Forwards (Page 22)

(I) Inflows generally reflects the impact of gross fundraising as well as closed reinsurance transactions at Fortitude and corporate acquisitions during the period, if any. For funds or vehicles denominated in foreign currencies, this reflects translation at the average quarterly rate.

(2) Outflows includes distributions net of callable or recyclable amounts in our carry funds, related co-investment vehicles, and separately managed accounts, gross redemptions in our open-ended funds, runoff of CLO collateral balances and the expiration of available capital.

(3) Market Activity & Other generally represents realized and unrealized gains (losses) on portfolio investments in our carry funds and related co-investment vehicles, and separately managed accounts, as well as the net impact of fees, expenses and non-investment income, change in gross asset value for our business development companies, changes in the fair value of Fortitude's general account assets covered by the strategic advisory services agreement, and other changes in AUM.

(4) Foreign Exchange represents the impact of foreign exchange rate fluctuations on the translation of our non-U.S. dollar denominated funds. Activity during the period is translated at the average rate for the period. Ending balances are translated at the spot rate as of the period end.

(5) Inflows represents limited partner capital raised by our carry funds or separately managed accounts for which management fees based on commitments were activated during the period, the fee-earning commitments invested in vehicles for which management fees are based on invested capital, the fee-earning collateral balance of new CLO issuances, closed reinsurance transactions at Fortitude, as well as gross subscriptions in vehicles for which management fees are based on net asset value. Inflows exclude fundraising amounts during the period for which fees have not yet been activated, which are referenced as Pending Fee-earning AUM.

(6) Outflows represents the impact of realizations from vehicles with management fees based on remaining invested capital at cost or fair value, changes in basis for funds where the investment period, weighted-average investment period or commitment fee period has expired during the period, reductions for funds that are no longer calling for management fees, gross redemptions in open-ended funds, and runoff of CLO collateral balances. Realizations for funds earning management fees based on commitments during the period do not affect Fee-earning AUM.

(7) Market Activity & Other represents realized and unrealized gains (losses) on portfolio investments in our carry funds based on the lower of cost or fair value and net asset value, activity of funds with fees based on gross asset value, and changes in the fair value of Fortitude's general account assets covered by the strategic advisory services agreement.

(8) Foreign Exchange represents the impact of foreign exchange rate fluctuations on the translation of our non-U.S. dollar denominated funds. Activity during the period is translated at the average rate for the period. Ending balances are translated at the spot rate as of the period end.

Notes on Fund Performance Tables (Pages 23-26)

(I) Represents the original cost of investments since inception of the fund.

(2) Represents all realized proceeds since inception of the fund.

Notes, continued

Notes on Fund Performance Tables (Pages 23-26) (continued)

- (3) Represents remaining fair value, before management fees, expenses and carried interest, and may include remaining escrow values for realized investments.
- (4) Multiple of invested capital ("MOIC") represents total fair value, before management fees, expenses and carried interest, divided by cumulative invested capital.
- (5) An investment is considered realized when the investment fund has completely exited, and ceases to own an interest in, the investment. An investment is considered partially realized when the total amount of proceeds received in respect of such investment, including dividends, interest or other distributions and/or return of capital, represents at least 85% of invested capital and such investment is not yet fully realized. Because part of our value creation strategy involves pursuing best exit alternatives, we believe information regarding Realized/Partially Realized MOIC and Gross IRR, when considered together with the other investment performance metrics presented, provides investors with meaningful information regarding our investment performance by removing the impact of investments where significant realization activity has not yet occurred. Realized/Partially Realized MOIC and Gross IRR have limitations as measures of investment performance and should not be considered in isolation. Such limitations include the fact that these measures do not include the performance of earlier stage and other investments that do not satisfy the criteria provided above. The exclusion of such investments will have a positive impact on Realized/Partially Realized MOIC and Gross IRR in instances when the MOIC and Gross IRR in respect of such investments are less than the aggregate MOIC and Gross IRR. Our measurements of Realized/Partially Realized MOIC and Gross IRR may not be comparable to those of other companies that use similarly titled measures.
- (6) Gross Internal Rate of Return ("Gross IRR") represents an annualized time-weighted return on Limited Partner invested capital, based on contributions, distributions and unrealized fair value as of the reporting date, before the impact of management fees, partnership expenses and carried interest. For fund vintages 2017 and after, Gross IRR includes the impact of interest expense related to the funding of investments on fund lines of credit. Gross IRR is calculated based on the timing of Limited Partner cash flows, which may differ to varying degrees from the timing of actual investment cash flows for the fund. Subtotal Gross IRR aggregations for multiple funds are calculated based on actual cash flow dates for each fund and represent a theoretical time-weighted return for a Limited Partner who invested sequentially in each fund.
- (7) Net Internal Rate of Return ("Net IRR") represents an annualized time-weighted return on Limited Partner invested capital, based on contributions, distributions and unrealized fair value as of the reporting date, after the impact of all management fees, partnership expenses and carried interest, including current accruals. Net IRR is calculated based on the timing of Limited Partner cash flows, which may differ to varying degrees from the timing of actual investment cash flows for the fund. Fund level IRRs are based on aggregate Limited Partner cash flows, and this blended return may differ from that of individual Limited Partners. As a result, certain funds may generate accrued performance revenues with a blended Net IRR that is below the preferred return hurdle for that fund. Subtotal Net IRR aggregations for multiple funds are calculated based on actual cash flow dates for each fund and represent a theoretical time-weighted return for a Limited Partner who invested sequentially in each fund.
- (8) Represents the net accrued performance revenue balance/(giveback obligation) as of the current quarter end.
- (9) Represents all realized proceeds combined with remaining fair value, before management fees, expenses and carried interest.
- (10) Aggregate includes the following funds, as well as all active co-investments, separately managed accounts (SMAs), and stand-alone investments arranged by us: MENA, CCI, CSSAF I, CPF I, CAP Growth I, CAP Growth II, CBPF II, CAGP IV, ABV 8, ABV 9 and ACCD 2.
- (11) Aggregate includes the following funds, as well as related co-investments, separately managed accounts (SMAs), and certain other stand-alone investments arranged by us: CP I, CP II, CP III, CP IV, CEP I, CEP II, CAP I, CAP II, CAP III, CBPF I, CJP I, CJP II, CMG, CVP I, CVP II, CUSGF III, CGFSP I, CEVP I, CETP I, CETP II, CAVP I, CAVP II, CAGP III, CEOF I, Mexico and CSABF.
- (12) For funds marked "NM," IRR may be positive or negative, but is not considered meaningful because of the limited time since initial investment and early stage of capital deployment. For funds marked "Neg," IRR is considered meaningful but is negative as of reporting period end.
- (13) For purposes of aggregation, funds that report in foreign currency have been converted to U.S. dollars at the reporting period spot rate.
- (14) Aggregate includes the following funds, as well as all active co-investments, separately managed accounts (SMAs), and stand-alone investments arranged by us: CCR, CER I, and CER II.

Notes, continued

Notes on Fund Performance Tables (Pages 23-26) (continued)

(22) Includes private equity and mezzanine primary fund investments, secondary fund investments and co-investments originated by Alpinvest. Excluded from the performance information shown are: (a) investments that were not originated by Alpinvest (i.e., Alpinvest did not make the original investment decision or recommendation); (b) Direct Investments, which was spun off from Alpinvest in 2005; (c) Carlyle Alpinvest Private Markets (CAPM); and (d) LP co-investment vehicles managed by Alpinvest. As of March 31, 2025, these excluded portfolios amounted to approximately \$9.8 billion of AUM in the aggregate.

(23) To exclude the impact of FX, all foreign currency cash flows have been converted to the currency representing a majority of the capital committed to the relevant fund at the reporting period spot rate.

(24) Gross Internal Rate of Return ("Gross IRR") represents the annualized IRR for the period indicated on Limited Partner invested capital based on investment contributions, distributions and unrealized value of the underlying investments, before management fees, expenses and carried interest at the Alpinvest level.

(25) Includes ASF VIII - SMAs, ACF IX - SMAs, Alpinvest Strategic Portfolio Finance II, Alpinvest Atom Fund, Alpinvest Atom Fund II, all mezzanine investment portfolios, all 'clean technology' private equity investment portfolios, all strategic portfolio finance SMAs, and any state-focused investment mandate portfolios.

(26) "ASF" stands for Alpinvest Secondaries Fund, "ACF" stands for Alpinvest Co-Investment Fund, and "SMAs" are Separately Managed Accounts. "ASF - SMAs" and "ACF - SMAs" reflect the aggregated portfolios of investments held by SMAs within the relevant strategy, which invest alongside the relevant ASF or ACF (as applicable). Strategic SMAs reflect the aggregated portfolios of co-investments made by SMAs sourced from the SMA investor's own private equity fund investment portfolio. Other SMAs reflect the aggregated portfolios of investments within the relevant strategy that began making investments in the corresponding time periods. Co-Investments SMAs 2014-2016 does not include two SMAs that started in 2016 but invested a substantial majority alongside ACF VII. These two SMAs have instead been grouped with ACF VII - SMAs. An SMA may pursue multiple investment strategies and make commitments over multiple years.

(27) Net Internal Rate of Return ("Net IRR") represents the annualized IRR for the period indicated on Limited Partner invested capital based on investment contributions, distributions and unrealized value of the underlying investments, after management fees, expenses and carried interest. Fund level IRRs are based on aggregate Limited Partner cash flows, and this blended return may differ from that of individual Limited Partners. As a result, certain funds may generate accrued performance revenues with a blended Net IRR that is below the preferred return hurdle for that fund.

(28) The fund step-down date represents the contractual step-down date under the respective fund agreements for funds on which the fee basis step-down has not yet occurred. Funds without a listed Fee Initiation Date and Step-down Date have not yet initiated fees.

(29) All amounts shown represent total capital commitments as of March 31, 2025. Certain of our recent vintage funds are currently in fundraising and total capital commitments are subject to change. Capital Committed for CEMOF II reflects original committed capital of \$2.8 billion, less \$1.1 billion in commitments which were extinguished following a Key Person Event.

(30) Net accrued carry presented excludes net accrued carry retained as part of the sale of Metropolitan Real Estate on April 1, 2021. There was no net accrued carry balance for Metropolitan Real Estate as of March 31, 2025.

(31) Funds are included when all investments have been realized. There may be remaining fair value and net accrued carry where there are outstanding escrow balances or undistributed proceeds.

(32) Gross IRR and Net IRR reflect the performance of equity commitments in CCOF III PSV.

Notes on Reconciliation for Distributable Earnings per Share (Page 28)

(i) Estimated current corporate, foreign, state and local taxes represents the total U.S. GAAP Provision (benefit) for income taxes adjusted to include only the current tax provision (benefit) applied to Net income (loss) attributable to The Carlyle Group Inc. This adjustment, used to calculate Distributable Earnings, Net attributable to common stockholders, reflects the benefit of deductions available to the Company on certain expense items that are excluded from the underlying calculation of Distributable Earnings, such as equity-based compensation expense, amortization of acquired intangible assets, and other charges (credits) related to corporate actions and non-recurring items that affect period-to-period comparability and are not reflective of the Company's operational performance. Management believes that using the estimated current tax provision (benefit) in this manner more accurately reflects earnings that are available to be distributed to common stockholders.

(2) Estimated DE effective tax rate is calculated as the estimated current corporate, foreign, state and local taxes divided by Distributable Earnings.

Note on Reconciliation of GAAP to Total Segment Information (Page 31)

(i) Adjustments to performance revenues and principal investment income (loss) relate to (i) unrealized performance allocations net of related compensation expense and unrealized principal investment income, which are excluded from the segment results, (ii) amounts earned from the Consolidated Funds, which were eliminated in the U.S. GAAP consolidation but were included in the segment results, (iii) amounts attributable to non-controlling interests in consolidated entities, which were excluded from the segment results, (iv) the reclassification of NGP performance revenues, which are included in principal investment income in U.S. GAAP financial statements, (v) the reclassification of fee related performance revenues, which are included in fund level fee revenues in the segment results, and (vi) the reclassification of tax expenses associated with certain foreign performance revenues. Adjustments to principal investment income (loss) also include the reclassification of earnings for the investments in NGP Management and its affiliates to the appropriate operating captions for the segment results, the exclusion of charges associated with the investment in NGP Management and its affiliates that are excluded from the segment results and the exclusion of the principal investment loss from the dilution of the indirect investment in Fortitude.
